## Take your sustainability reporting to the next level!

The one-day SDG course provides information on the GRI Standards and the UN Sustainable Development Goals (SDGs). You will get to know the SDGs and learn how they can be used in combination with the GRI Standards as part of an annual or sustainability report. Using a hands-on approach, you will learn how to integrate the SDGs into your reporting process to demonstrate your company's contribution towards sustainable development. Case studies show how other companies have already started to integrate the Sustainable Development Goals into their reporting process.

## Language

The course can be conducted in German or English, depending on the participants' needs. Course materials are in English.

## Objectives

- Get to know the Sustainable Development Goals and how they can be linked to the GRI Standards
- Overview of GRI and the GRI Standards
- Understand how SDGs can practically be integrated into the reporting process

This course is intended as a supplement to the basic course (GRI Standards Certified Training) and is particularly recommended for experienced GRI reporters who wish to focus on the Sustainable Development Goals.

## Participants will receive

- Detailed insights into the SDGs in combination with GRI reporting
- Best Practice - examples and case studies
- Practice-oriented group exercises and discussions
- Detailed course material
- GRI Course Certificate

## Course fee

The course fee of CHF 1,000.- (excl. VAT) includes the following services:

- Participation in the course
- Course material
- Catering (lunch and breaks)
- Certificate issued by GRI confirming successful completion of the course

We offer a 10% discount (non-cumulative) for: GRI Gold Community members, any other person from the same organisation in the same training course, representatives of non-profit organisations, students upon presentation of a student card.
